PROFILE

Entrepreneur and performance marketing professional with experience in digital advertising, data analysis, live commerce and business operations since 2019, now transitioning into artificial intelligence and software development. Managed approximately **R$4 million in paid media** at InfoWave, later co-founded a TikTok Shop live-commerce agency in Brazil, and is currently independently developing an **AI-powered SaaS platform for automated live commerce**. My experience operating digital businesses led me to explore artificial intelligence as a way to solve real operational problems through automation, data analysis and software. I am seeking formal education in computer programming and AI to strengthen the technical foundations behind the products I am already building.

CURRENT PROJECT

Founder & AI SaaS Developer

Independent AI Live-Commerce SaaS | Brazil | Aug 2026 - Present

- Independently designing and developing the entire SaaS platform from the ground up as the sole developer to date.
- Building a platform intended to enable continuous, AI-powered live-commerce broadcasts; the product is currently in active development and has not yet launched.
- Developing dashboards, data-analysis tools, automation workflows, AI integrations and internal operational tools.
- Applying firsthand experience from TikTok Shop and live-commerce operations to identify real business problems and translate them into software solutions.
- Using Claude and generative AI tools for AI-assisted coding, rapid prototyping, problem-solving and product iteration.
- Responsible for product concept, development, testing and business-model development toward an initial launch.

PROFESSIONAL EXPERIENCE

Co-Founder & Operations Lead

TikTok Shop Live-Commerce Agency | Brazil | Nov 2025 - Aug 2026

- Co-founded a live-commerce agency focused on selling products for brands through TikTok Shop livestreams.
- Connected brands seeking live-commerce sales with live sellers responsible for presenting and selling their products.
- Took primary responsibility for day-to-day business operations, coordinating brand requirements, sales execution and live-selling operations.
- Analyzed live-commerce sales data and performance metrics to support operational and commercial decisions.
- Developed internal dashboards and AI-assisted data-analysis solutions for the agency.
- Began developing AI-based approaches to automate repetitive operational processes and reduce dependence on manual workflows; this experience directly led to the current SaaS project.

Paid Media & Performance Analyst

InfoWave | Brazil | Sep 2023 - Sep 2024

- Managed approximately **R$4 million in paid advertising spend** during my time at the company.
- Managed acquisition campaigns for TexyBet, an online betting and gaming client.
- Ran Google Ads campaigns with a strong focus on YouTube advertising, as well as performance campaigns across Meta/Facebook Ads and Kwai.
- Worked with direct-response acquisition funnels connected to digital information products and the client platform.
- Built performance dashboards in **Google Data Studio (Looker Studio)** to monitor campaign results and support decision-making.
- Worked extensively with spreadsheets to organize, consolidate and analyze campaign data, including linking multiple data sources and maintaining reporting structures.
- Created data connections and integrations between reporting sources to improve visibility, reporting consistency and performance analysis.
- Used campaign data, conversion metrics and dashboards to support testing, optimization and acquisition strategy development.
